RESPONSE TO ADVISORY ACTION

Sir:

On March 26, 2007, Applicant's representatives conducted a telephone interview with the Examiner to clarify apparent discrepancies of the Advisory Action mailed on March 22, 2007 and the Final Office Action mailed on January 17, 2007. In particular, during the telephone interview it was pointed out to the Examiner that neither the Final Office Action mailed on January 17, 2007 nor the Advisory Action mailed on March 22, 2007, address claims 29-31, which were added on October 11, 2006, in response to a Non-Final Office Action, mailed on August 22, 2006.

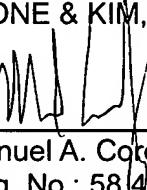

In consideration of the above points, the Examiner agreed during the conference to re-open prosecution and issue an Office Action to fully address all pending claims in this application upon receipt of a summary of our interview.

Application No.: 10/821,933
Docket No.: 101-1029

Accordingly, we submit this Response to the Advisory Action to memorialize the results of the interview as requested by the Examiner, and await issue of an Office Action as discussed above.

Respectfully submitted,
STANZIONE & KIM, LLP
